

ADSL

COST EFFECTIVE, UNLIMITED CONNECTIVITY

Fusion business ADSL services provide you with uncapped, unlimited, premium internet access. Ideal for SME and remote sites for everyday, always on internet access.

More and more organisations rely on internet access to improve communications and business efficiency. Without limitation of any kind, you can safely use our network to boost productivity without any hidden costs.

Fusion's tailored business ADSL services have optional enhanced care enabling us to prioritise your support issues and arrange BT engineer visits around the clock.

Fusion provides dedicated account management for all clients; we'll work and communicate with you at every step, from initial provision to support. You're not just another customer. We'll know your business, needs and concerns and advise options available to keep you working 24hours a day, 7 days a week.

We like to keep things simple.

Key Features of ADSL services:

- Available nationwide in two variants
- Ideal for SME or remote/home-office workers
- Seamless upgrade options from home worker to enterprise
- Enhanced Service Level Guarantee Options
- Out of the box solution
- Fully managed provision, connect and use
- Optional managed support
- No need to deal with BT for either telephone line or broadband (if opting for telephone line from Fusion)
- Automatic upgrade to BT 21CN (ADSL2+) as soon as available from the local exchange

The Fusion Difference:

- Unlimited, uncapped always on internet access
- No Fair Usage Policy
- Premium UK based support
- Dedicated High Availability Account Management
- On Demand Expertise
